Learning
Programme**

WORKSHOP

We interviewed children after parents and grandparents about the family habits with regard to the maintenance of good health, we decided to make T-shirts: so every time that we will be wearing them we will remember all our conversations in our families about the topic: "I learn to live healthy !"

We talked among ourselves to decide what to print on the shirt and we made this choice:

- As the theme of the Green Class for us concerned the knowledge and the use of medicinal plants to treat health problems, we will print the "Green Class" to remember all what we have learned;
- Put the logo chosen, designed by Fabiano, which summarizes all our spots that we thought: FRIENDS FOREVER ON THE GREEN HILLS OF WELL-BEING.
"So we will remember all our friends of the Comenius Project who worked with us.
- The background of the T-Shirt will be white to bring out all the other colors.

Here is the logo that we thought

"Progetto Comenius"
2011/2013

Classe verde

***A clever dad was in charge of the print and...
here is the result !***

Ciao Sveiki Hallo Здравейте Tere Halo Merhaba
